

MX1RDT

1 Class Desktop Series

Bringing next generation processing and storage, the MX1RDT delivers both in performance, reliability, and affordability. Equipped with the latest Intel® Core™ i5-10500 10th Generation Processor, it offers up to 30% more computing potential than 9th generation processors.

With storage options up to 48TB enabled by a 3.5" 24/7 duty cycle SATA hard drive, and up to 128GB of DDR4 RAM, this small form factor server allows for elongated storage durations in any entry level deployment. With the operating system on a NVMe M.2 solid state drive, system boot and application load times are fast and reliable.
